

01. Contact Form (100 points)

Create a Web page (HTML5 + CSS3) that looks like the screenshot below:

The screenshot shows a contact form on a light gray background. On the left, under the heading 'GET IN TOUCH', there are three input fields: 'Name', 'Email', and 'Message'. Below the 'Message' field is a dark gray 'SEND' button. On the right, under the heading 'FOLLOW', there is a grid of social media icons: Twitter, Facebook, Instagram, GitHub, LinkedIn, Pinterest, Threads, and a phone icon. At the bottom left of the form area, there is a copyright notice: '© Untitled. All rights reserved Design: [HTML & CSS](#)'.

Output

The output should be valid **HTML5 + CSS3 + Font Awesome icons** that implement the above web page.

- Use font 'Source Sans 3', sans-serif - (<https://fonts.googleapis.com/css2?family=Source+Sans+3:ital,wght@0,200..900;1,200..900&display=swap>)
- The site should open correctly in the **latest** version of **Chrome**

IMPORTANT: Do not change the structure of the provided exam resources. You may create files, but do not create new folders, rename existing ones, or move them to other directories.

Hints:

- **Background:** Use a **color picker tool** to identify the background color of the image and apply it to the frontend design.
- **Icons with Font Awesome:** Use **Font Awesome** to add the following icons to your frontend design: **X** (Twitter), **Facebook**, **Instagram**, **GitHub**, **LinkedIn**, **Pinterest**, **Threads**, **phone icon**, and **email icon**.
